

Shipping Execution System

Shipping **LIVE!**

The screenshot displays the ShippingLIVE! software interface. On the left is a green sidebar menu with options: Rate Shop, Shipping Forms, Ship Confirm, Master Manifest, End Of Day, Shipping History, Reconcile, Inbound Portal, and ShippingLive!. The main area is divided into several sections: 'Search' with fields for SAP DE (JUS Demo), Site ID (Texas Site), Carton ID, Order ID, Pallet ID, and Cust ID; 'Confirm' with fields for Name, Carrier (UPS Ground), Weight, and Scale ID; 'BOL Creation & Consolidation' with 'Create BOL' and 'Print BOL' buttons; 'Pallet Creation' with 'Create Pallet' and 'Print Label' buttons; and 'Select Package' at the bottom.

Success. Not Software.®

ShippingLIVE!®'s Simple yet powerful Ship Station, can be run lights out (completely automated), or in manual mode and a couple of clicks completes the shipment. All the work is done in the background by a powerful, state of the art engine that seamlessly interfaces with your ERP, WMS, Customer Service System, and other applications, to update all records instantly and accurately. Less labor is required to do the same amount of work. Our powerful rating engine selects the least cost solution for every shipment and can determine the best cost across all carriers, Parcel/LTL/TL. Our new In-Bound Portal allows you to extend your rates and rules to your suppliers. Utilizing the latest technology **ShippingLIVE!®** offers tremendous performance and scalability. Contact us to see how **ShippingLIVE!®** can dramatically save your company a lot of money, and time.
